Dear Sir

Re: The Murder of Terrence & Christine Hodson & Police Corruption

We are writing to you to implore you to take action in relation to the murder of our parents, Terrence & Christine Hodson. Since their murder almost eight years ago we have had conversations with lots of different members of Victoria Police, but we now feel very strongly that it is appropriate to ask you directly to implement action and to assign us a permanent contact person so that we be can regularly updated.

It appears extraordinary that one of the more pressing cases (if not the most pressing) with which Victoria Police is entrusted, where there is evidence that a former senior police member who was involved in a series of ghastly murders, who in fact disposes of witnesses to his crimes, should remain unresolved. It will be eight years on Wednesday 16 May 2012; we, our parents and the community at large all deserve closure.

One might speculate that there are some people in the Victoria Police who have a vested interest in not solving the murders.

One may further speculate that solving the murders may cause (further) embarrassment to many important people; meanwhile the community is waiting to secure finality and we are waiting to see who will be the next victim of the murderous activity.

We are very confident based upon personal knowledge, that credible and reliable evidence is available to at least pursue Police enquiries; however, Victoria Police's continued inactivity results in the silencing of witnesses.

The OPP indicates that it has no power to investigate only to prosecute. Consequently the Director is apparently waiting for Police to provide evidence so that he may be in a position to proceed. Like us, he is waiting and waiting and waiting.

May we respectfully ask how long will the community need to wait to bring criminals to justice? At this stage Victoria Police are yet to prepare a brief of evidence for an inquest.....what could be the reason for this? One might speculate that the community may then see how little the Police have done to date.

~

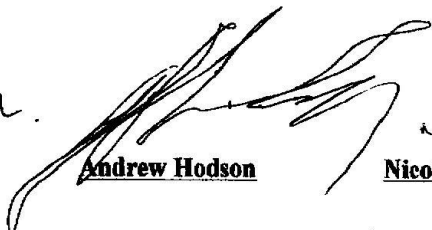

Please do *not* as your predecessors and others within Police Hierarchy have done, i.e. to put this into the "too hard" basket and ignore our plea.

We would like to think that you would at the very least want to live up to the promise you made to the Victorian public when you accepted your (formal) appointment as the new Chief Commissioner some six months ago, that being to resolve one of the most heinous crimes ever in the history of this State.

We will be heartened by your urgent reply.

M. E. Hodson.
